

# Seed Tender Weighing & Wireless Control Systems

Automated Wireless Weighing & Control  
Solutions for Agriculture

**Intercomp's RFX™ Systems Weigh & Control All Equipment Functions  
with One Wireless Handheld Controller**

# Seed Tender Weighing & Remote Control Systems

Simple | Efficient | Reliable | Accurate

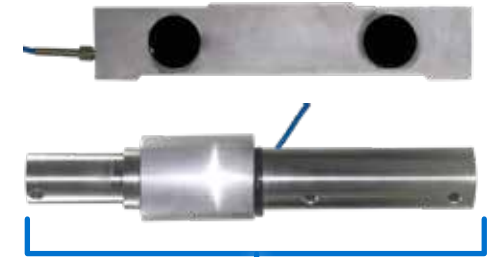

## Intercomp's On-Board Weighing & Automated Control Systems with RFX™ Wireless Communication Offer a Complete Solution

The wireless handheld remote displays weights and controls all Seed Tender functions. No more wasted trips walking between the planter and Seed Tender

The AG Scale Indicator processes the weight data and transmits to the Handheld Controller via RFX™ Wireless Communication

Fully electronic Shear Beam and custom load cells are designed to fit any application.

### Dispense the Correct Weight Every Time

Intercomp's HH520™ RFX™ Wireless Handheld combines weighing and control in one simple handheld device.

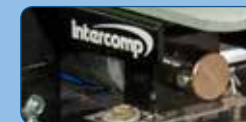

- Control Auger Movements
- On/Off Control
- Open/Close Gate
- Track Individual ProBox/Bin Weights
- Auto Dispense Preset Amounts
- Zero Scales

The RFX™ Wireless Indicators enable the on-board weighing system to communicate with various devices in real time with a clean, non-intrusive install.

### RFX™ Wireless Technology Allows:

- Multiple Systems to Communicate from One Handheld Controller
- Control Equipment Functions from Where it is Most Convenient for the Operator

Intercomp offers a full line of custom Load Cells specifically designed for onboard weighing systems.
