

# Weighing and Remote Control Systems

*Simple, Reliable, and Accurate Weighing & Control Solutions for Agriculture*

## *Intercomp's RFX™ Systems Accurately and Efficiently Control All Weighing Equipment with One Wireless Handheld Controller*

Solutions for agricultural industries have been a part of Intercomp's family of products since 1978. We offer a wide range of scale options to help your operation improve precision and efficiency. Intercomp is a leading innovator of scale indicators, custom load cells for on-board applications, low speed weigh-in-motion and portable wheel load scales for agriculture.

Our wireless solutions offer the ability to view weights and also control equipment functions from where it is most convenient for the operator. This enables a single person to safely and efficiently monitor all loading and unloading of feeding equipment.

# Intercomp's RFX™ Wireless Communication Makes Batching Simple

## Accurate

Load the correct weight every time.

## Simple

Intuitive process and clearly marked keys make learning quick and easy.

## Efficient

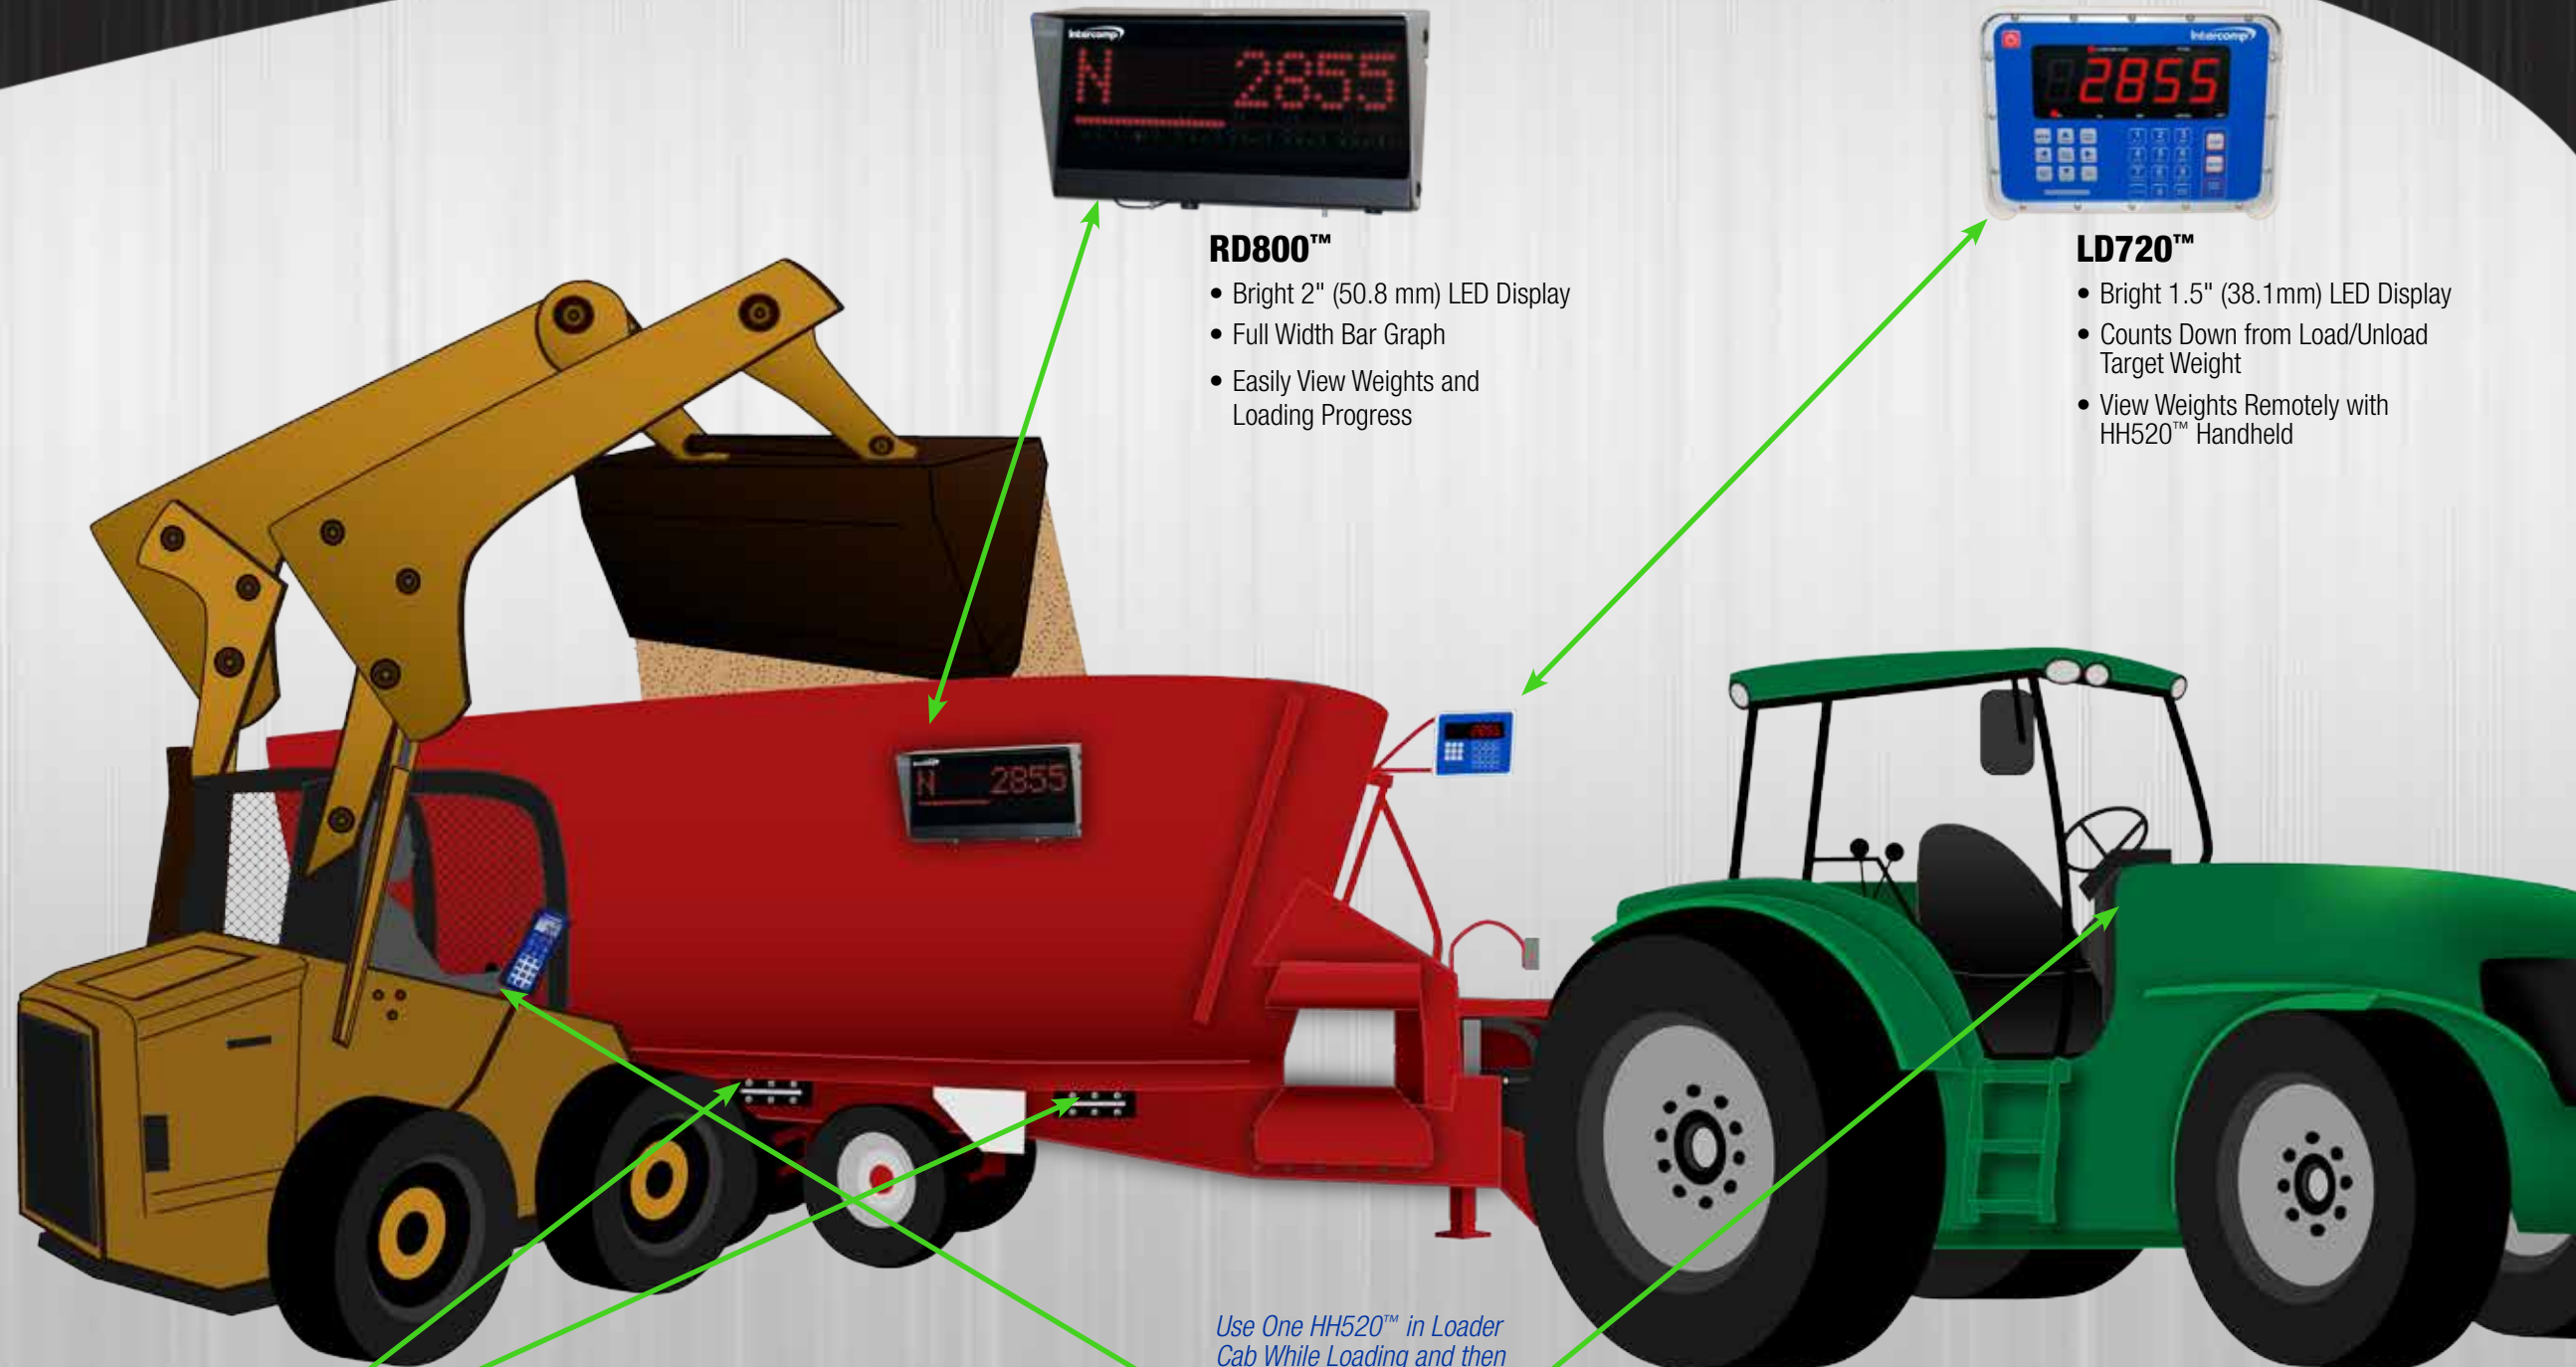

Wireless control allows users to manage key functions from where they are.

## Reliable

Designed for a rugged environment.

## Flexible

Easily configure wireless system to meet your operation's needs.

### RD800™

- Bright 2" (50.8 mm) LED Display
- Full Width Bar Graph
- Easily View Weights and Loading Progress

### LD720™

- Bright 1.5" (38.1mm) LED Display
- Counts Down from Load/Unload Target Weight
- View Weights Remotely with HH520™ Handheld

*Use One HH520™ in Loader Cab While Loading and then Take to Mixer for Unloading*

### Load Cells

Fully Electronic Load Cells Specifically Designed for Onboard Weighing

Intercomp's Double Ended Shear Beam Load Cell Minimizes Equipment Height While Providing High Capacity.

### HH520™

- Remotely Control LD720™ Load/Unload and Scale Functions from Cab
- Large ½" (12.7mm) Character Weight Display
- Ultimate Flexibility to Meet Your Operation's Needs  
*One HH520™ Can be Paired with Multiple Mixers*

# Wireless Controls & Remote Displays for Batching

## LD720™ LED LOAD/UNLOAD RFX™ WIRELESS INDICATOR

- Bright 1.5" (35.1mm) LED Provides Clear Visibility in Extreme Temperatures and all Lighting Conditions
- Counts Down from Load/Unload Target Weight
- View Weights Remotely with Ag RFX Handheld
- Standard Two-Function Relay Board
- Large Tactile Buttons Allow Easy Use- *Even While Wearing Gloves*
- Intuitive Operation- Simply Enter Weight Then Select Load or Unload
- Easily Unload the Exact Amount *Every Time*
- Ideal Solution for Stationary TMR Mixers and Grinder Mixers
- OEM Can Use Standard Input to Display Open When Rear Unloading Gate is Open
- Standard Military Spec Connections

## RD800™ LED REMOTE DISPLAY

- Bright, High-Resolution Eight-Digit 2" (50.8mm) Alpha/Numeric Display
- Full Width Bar Graph Provides Visual Reference During Load/Unload Process
- Polarized Lens Reduces Glare During Daylight Hours
- Rugged Powder Coated Steel Enclosure
- Stainless Steel Debris Shield

## HH520™ RFX™ WIRELESS HANDHELD

- Ultimate Flexibility to Meet Your Operations Needs
- Large Multi-line 3.3" (83.8 mm) LCD Diagonal Backlit Graphic Display with .5" (12.7mm) Characters
- Remotely Control LD720 Scale Functions and Enter Target Weights from Cab
- Powered by Standard AA Batteries
- Wireless Communication 300' (91.4m) Line of Sight
- Optional Automated Equipment Controller
